TO WHOM IT MAY CONCERN

Subject: REACH legislation (1907/2006/EC) update

Dear Customer,

Reagens Spa has already preregistered all the substances contained in its present product portfolio to guarantee the supply of materials during the transition periods toward registrations deadlines.

Of course we are in contact with our suppliers to ensure that the purchased materials will be pre-registered as well.

Our intention is to register all substances we manufacture and to be sure that also all our imported raw materials will.

If in the future, certain substances will be restricted by Reach regulation, we will immediately inform our customers and we shall discuss and find with them the best possible common solutions.

Yours faithfully,
REAGENS S.p.A.
Adriano Ambu
REACH Implementation Project Responsible
